SANGHARAJ SASANE

SOFTWARE ENGINEER (SDE) | PYTHON · BACKEND · CLOUD · GENAI

Mumbai, India · +91 93720 12510 · sangharajsasane99@gmail.com · linkedin.com/in/sangharaj-sasane-bb64a5307 · github.com/Sangharaj1

PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience designing and operating **backend systems, serverless automation and GenAI/LLM applications in production on AWS**. Shipped Python microservices and REST APIs at **99.9% uptime**, eliminated **70% of manual operational workload** with event-driven Lambda automation, and built LangChain/RAG pipelines that reduced analyst intervention by **60%**. Strong across the software development lifecycle — design, implementation, testing, CI/CD, observability and on-call reliability. Oracle Certified in Generative AI, Development and DevOps.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL

GenAI / LLM: LangChain, LangGraph, RAG, ChromaDB, OpenAI GPT-4o, Google Gemini, Prompt Engineering

Backend & APIs: FastAPI, Spring Boot, REST APIs, Microservices, JWT / OAuth2, Pydantic

Cloud & DevOps: AWS (Lambda, EC2, IAM, S3, CloudWatch), GCP, Terraform, Docker, Jenkins, CI/CD, Git

Frontend: React, TailwindCSS · **Data:** PostgreSQL, MySQL, MongoDB, Redis

Software Engineering: System design, event-driven architecture, IaC, observability, code review (AI-assisted: Claude, Cursor, GitHub Copilot)

WORK EXPERIENCE

NTT DATA — Software Engineer, Cloud Automation & GenAI **Jul 2023 – Present**

Networking Managed Services · Mumbai, India

- **Own** event-driven Python automation on **AWS Lambda** across production environments — **eliminated 70% of manual operational workload** and cut task turnaround from hours to minutes.
- Designed and built **LangChain + Python pipelines** for incident analysis and structured report generation — **reduced analyst intervention by 60%** on live enterprise incidents.
- Develop and maintain **REST APIs (FastAPI, Spring Boot)** across **10+ microservices**, sustaining **99.9% uptime** for enterprise customers; reviews and ships weekly releases.
- Implemented **AWS IAM** security controls and Python automation across 5+ production environments — **zero audit findings for 4 consecutive quarters**.
- Enhanced observability with **CloudWatch** monitoring (**MTTR cut 35%**) and support **CI/CD with Docker and Jenkins** for zero-downtime deployments.

PROJECTS

Cloud AI Security Automation Platform

Python, AWS Lambda, LangChain, ChromaDB, Terraform · Jan 2026 – Present

Built a production, tool-using **LLM agent** that autonomously analyzes IAM policies, detects anomalies and generates structured incident reports — **processing 500+ daily events with sub-second response times**. Designed a **RAG pipeline** (LangChain + ChromaDB) for policy retrieval and automated summarization, cutting manual security review effort by **80%**. Migrating orchestration to **LangGraph** for multi-step state across detection, analysis and reporting.

AI Resume / Job-Fit Analyzer

React, FastAPI, PostgreSQL, OpenAI GPT-4o, SSE · May 2026 – Aug 2026

Engineered a **60/40 dual-scoring engine** (LLM semantic analysis + keyword overlap) with **Pydantic-validated JSON output and error-retry logic**, plus real-time word-by-word **SSE** cover-letter streaming; side-by-side bullet rewrites, missing-skill tags and persistent analysis history. **Deployed on Vercel**.

SmartWebAI — AI Browser Assistant

Gemini Nano, Chrome AI APIs, React, TailwindCSS · Dec 2025 – Jan 2026

Built a Chrome extension using **on-device inference (Gemini Nano)** for real-time page summarization and Q&A — cut information-retrieval time by **65%** with a streaming React UI at **<200ms perceived latency** and zero API cost.

E-Commerce Microservices Platform

Spring Boot, JWT, MySQL, React · Dec 2023 – Nov 2025

Engineered a **microservices backend** (authentication, product catalogue, order processing) supporting **10,000+ concurrent users**, with **JWT-based RBAC** securing 5 independent services and a React frontend with live cart updates.

EDUCATION & CERTIFICATIONS

B.E. Computer Science — K.C. College of Engineering, Mumbai University · Jul 2019 – May 2023 · **CGPA 8.50/10**

Oracle Cloud Infrastructure Certifications (Oct 2025): Generative AI Professional · Developer Professional · DevOps Professional
